## What is the GoddessGuide Intuition Workshop?

Together we create a sacred, safe and intimate circle where you can be yourself and voice anything that is holding you back or that you want support with. Nothing revealed leaves our circle. Each of you has the opportunity to be heard and work on real issues. The workshops are designed to show you, using the GoddessGuide Intuition cards as a tool, how to hear your inner voice and more importantly, learn to act on it.

## How will I benefit?

*"The cards are like a wise girlfriend who always believes in your best self, who is there for you as a support and always on hand when you need her guidance, helping you to unlock a power you already have within you."* Whatever is going on in your life which seems outside your control, you have the ability to choose your thoughts and feelings selecting those that support your peak vitality and honour YOU. When you source answers from your inner wisdom you will be far more empowered on your journey. You CAN make the changes. With time, trust and regular use of the GoddessGuide Intuition cards, you will reclaim your confidence and self esteem, your life will take on greater clarity and direction and things, generally will flow effortlessly.

## What are the GoddessGuide Intuition cards?

In 2003, I combined my passion as an artist with my passion as a coach when I was divinely guided to create 24 cards based on a collection of my paintings called The Sacred Feminine. Each card features a Goddess image along with a specific inspirational message I received in relation to that piece. I believe these were 'downloaded' to me as a self-help tool, to spread their supporting and guiding messages, showing each one of us how to look within to our own inner voice, rather than without, for answers. I spent several years using the cards with people of all ages, nationalities and walks of life and am continually astonished by the feedback on their accuracy in giving guidance and insight.

## What have others said about the GoddessGuide Intuition Workshops?

*"It was fascinating to see others getting a lot of emotional charge out of their card choices. I think this is where the 'self-help' element is demonstrated, in that the text resonates with intuitive thoughts you've already had, but haven't expressed."* Arpi

*"The open attitude of those I worked with and how emotional the (GoddessGuide) cards made people feel, opened them up in ways nothing else does. It lets us see deep within."* Henrietta

*"Every time they seem to have a spot on message for where I am at on my journey - remarkable!"* Marloes

*"The fact that we choose the cards ourselves, along with the colours and the messages combine to give a powerful insight into our present situation. Working with others in this intimate way, creates closer bonds with people who learn to trust and open up to one another. I was overwhelmed by the response I got from the partners I worked with."* Viv

*"I felt deep unity between people who attended the workshop, shedding all their inhibitions and really opening up to the experience."* Mirka

## I'd like to be a GoddessGuide Workshop Host. How do I go about it?

Anyone can! All you have to do is find 10 or more friends who would like to be part of one of these powerful and sacred workshops, have the space and seating to accommodate them and then give me a call to fix a date. It's that simple. As GoddessGuide Host your participation is without charge. If you go on to host further workshops, there will be more exciting rewards and incentives.

## About Glen

*"We each have an inner voice which guides us for our highest good in all situations."*

I have been an artist for over 20 years and, as a natural progression, I began working as a personal life coach after leaving the corporate world. By nature I'm positive and have a genuine concern and compassion for others and their happiness. I am dedicated to the personal growth and transformation of both myself and those who I've been privileged to work with. After years of extensive travelling, I've recently returned from living 15 years in Europe where I've been developing the GoddessGuide concept of the cards, coaching and sacred workshops. Now I am really excited to be launching the GoddessGuides in Australia.
